a better
future...

Rizwan Seed Company

About us

Rizwan Seed Company was established in 2004 by Mr. Mohd Saleem to provide a broad range of vegetable seeds to the farmers of India suitable for their regional growing conditions. It is a young seed company that produces various open - pollinated, hybrid & poly house vegetable seeds in different regions of India and also imports diverse range of products from USA, Europe and Asian-Pacific. The major vegetable seeds we are dealing in include : cauliflower, cabbage, cucumber, onion, pepper, pumpkin, radish, squash, tomato, watermelon and Indian gourds (bitter gourd, bottle gourd and ridge gourd). We have a sizeable market share in cauliflower, cabbage, radish and carrot in India, Presently, we are selling our products in India and neighboring countries under the following brand names :-

OUR PACKING :-

Rizwan Seed Company
